

IR Charger

The IR microphone charger can charge both the Teacher Microphone and Handheld Microphone simultaneously. This is compatible with the intelligent charging system installed in both microphones that prevents batteries from being damaged due to overcharging. For indoor use only.

XD Charger

The XD microphone charger can charge both XD Teacher and Handheld microphones. Batteries will never overcharge due to the ingenious technology built into the microphones. For indoor use only.

IR Charger Specifications

Input	100-240VAC 50/60Hz 0.3A
Output	3.3V 2.4A per cable

XD Charger Specifications

Input	100-240V~50/60Hz 0.4A
Max Output	5VDC 2.4A per port
