

SAFE +

Powered by **A E G I X**

Safety & Daily Operations Platform

**Always On.
Everyday & Every Emergency.**

SAFE + from Audio Enhancement® builds on the EPIC (Education Paging & Intercom Communications) System® to support districts everyday, not just in a crisis. The same cloud-based system staff rely on for daily communication, drills, and campus operations shifts instantly into crisis mode the moment an emergency alert is initiated, keeping district leaders, administrators, and first responders in real time, whether it's a routine morning announcement or a critical incident.

One Platform. Two Functions. Always Connected.

Day-to-Day Operations

- Mobile & Desktop App-Allowing for easy access to the platform from anywhere.
- Campus-Wide Communication-Seamlessly connect with staff and classrooms through the existing EPIC System.
- Drill Management-Plan, schedule, and document routine safety drills.
- Incident Management & Forms Tracking-Log and manage day-to-day incidents and reporting.

Crisis & Emergency Response

- 1st Natively Integrated EMS with an Intercom System-Instant lockdown & emergency alerts campus-wide.
- Dynamic Campus Mapping-Live room status for first responders during an incident.
- Cloud-Based Access-District-wide visibility anytime, anywhere, when seconds count.
- RapidSOS PSAP Integration-Direct link to 911 dispatch during an emergency.
