

INTEGRATED EDUCATION SOLUTIONS

Audio Solutions

Each Classroom Audio System clearly projects the teacher's voice and multimedia, increasing focus, comprehension, and performance.

SAFE System®

The SAFE (Signal Alert For Education) System® is an alert and notification system that allows teachers and campuses to discreetly connect to first responders from the push of a button.

CLEAR Connect™

CLEAR Connect™ is a real-time classroom translation application that works with other Audio Enhancement® solutions to support multi-lingual learning.

EPIC System®

EPIC (Education Paging & Intercom Communications) System® provides flexible bell scheduling, intercom, and visual alerts, with an interactive campus map for clear communication and situational awareness.

VIEWpath®

VIEWpath (Video Interactive Education Window)® is designed specifically for educators to record, manage, and share lessons in class or remotely, while also reviewing engagement, performance, and content.

Making a difference in education since 1978
